

Attachment 3 Reciprocity Certification

2010 Hogback Rd., Suite #4
Ann Arbor, MI 48105
FEIN # 16-1661698

Nordic Marketing of Illinois, L.L.C. ("Nordic") certifies that it has no other affiliated companies involved in electric retail sales or purchases in the North American continent. Nordic does not own any transmission or distribution lines. Nordic is not able to provide the name of a principle electric source at this time for service to customers in the ComEd territory, as the source will be unknown until after certification as an ARES.

Nordic reasons that in complying with the Commission's 09/09/03 Order on Remand in the Blackhawk Energy ARES application case (01-0174), it cannot provide the information required for reciprocity specified in this case. Nordic plans to purchase power in the market to serve the customers based on the best business indicators at the time of certification. The supply that will be available upon certification cannot be known in advance of the actual purchase and may be from several separate sources. However, Nordic will be cautious to provide all customers the most reliable supply of electricity.

Nordic further certifies that it will comply with Section 16-115(d)(5) of the Act [220 ILCS5/16-115(d)(5)], and that it will remain in compliance with such requirements and will annually certify such compliance to the Commission within 30 days after the anniversary date of its certification.

Nordic certifies that once certified as an Alternative Retail Electric Service supplier it will continue to provide such delivery services and that it will not knowingly assist any person or entity to avoid the requirements of this Section (Section 16-115(d)(5) of the Act [220 ILCS5/16-115(d)(5)]).

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Carosio".

Michael Carosio
Vice President of Sales - Midwest
